

Experiment -2

Flight Reservation System

Aim

To create a Flight Reservation System using Zoho One as a cloud-based Software as a Service (SaaS) application.

Procedure

1. Log in to the Zoho One cloud platform.
2. Open Zoho Creator from the Zoho One applications.
3. Create a new application for the Flight Reservation System.
4. Create a new form named Flight Reservation.
5. Add the required fields: Name, Age, Round Trip, From, To, Departure, Travelers, Class, Fare Type, and International/Domestic Flights.
6. Configure the field types according to the data required.
7. Design and arrange the form for easy user interaction.
8. Save and publish the form.
9. Enter sample passenger and flight reservation details into the form.
10. Submit the form and verify that the entered data is stored in the cloud.
11. Test the application by entering different flight reservation details.
12. Verify that the Flight Reservation System works successfully as a SaaS application

Implementation Input:

Flight Reservation System

Reservation Systems

Flight Reservation System

All Reservation Systems

V SALMAN

Flight Reservation System

Name: First Name, Last Name

Passenger Phone: +91 81234 56789

Passenger Gender: -Select-

Passenger Address: Address Line 1, Address Line 2, City / District, State / Province, Postal Code, Country

Visa Status: -Select-

Travel Class: -Select-

Seat Preference: -Select-

Passport Number

Total Fare: ##,##,###,###

Meal Preference: -Select-

Output:

Flight Reservation System

Reservation Systems

Flight Reservation System

All Reservation Systems

V SALMAN

All Reservation Systems
