

Experiment -2

Property Buying & Rental System (Chennai) Using Zoho One (SaaS)

Aim

To create a simple Property Buying & Rental System for Chennai using Zoho One as a cloud-based Software as a Service (SaaS) application..

Procedure

- 1 Log in to the Zoho One cloud platform.
2. Open Zoho Creator from the Zoho One applications.
3. Create a new application for the Property Buying & Rental process.
4. Create a new form named Property Buying & Rental.
5. Add the required fields: Buy, Rent, Commercial, Rental Agreement, Rental Period, Area/Place, and Range/Value.
6. Configure the field types according to the data required.
7. Design and arrange the form for easy user interaction.
8. Save and publish the form.
9. Enter sample Chennai property details into the form.
10. Submit the form and verify that the entered property information is stored in the cloud.
11. Test the application using different property types and values.
12. Verify that the Property Buying & Rental System works successfully as a SaaS application.
